The founders of MINYATA Association organised summer camps since 1997, and in 2005 it became official with the foundation of the Organisation. (MINYATA is a Hungarian acronym for Everybody should have a Vacation Camp.)

Our mission is to improve life quality of children in need. We plan to achieve this with conscious value-transfer and with involving the children as active helpers. Our most important values are social empathy, society tolerance, open to culture and environmental awareness.

Most of our volunteers are teachers, social workers or students who choose this carrier path, some of the volunteers are previous campers, who since then grew up. Our volunteers do every task in their free time for free, just to see the children joyful and happy.

The leadership and the volunteers work and organise for the organisation during the whole year without any payment. The Organisation didn't had any salary or overhead costs since it's foundation.

Our social programs are for children in need. In the past 17 years we made camps for more than 2000 underprivileged children, many from these children had only trough us the opportunity to go to a summer camp or go to the lake Balaton for the first time in their life. The children are sent from our partner organisations across whole Hungary.

We organize our other permanent project, theater and museum visits, free of charge continuously during the year. This supports not only their cultural development, but helps their social integration as well.

On our December program we decorate Christmas trees, making the holidays happier for families in need and children in hospitals. The children can experience the joy of giving and they get the first Christmas presents. The decorated Christmas trees delight those who would not have the chance to have one of their own.

For the realization of our programs beside cash donations (in our camp the cost per child is including the accommodation, meals, and the programs 35.000 HUF), we also accept any material donations (board games, sports equipment, gifts, children clothes, kid's craft equipment).
